ivfLite™

Rotunda Blue Fertility Clinic & Keyhole Surgery Center

Welcome to the Rotunda Blue Fertility Clinic & Keyhole Surgery Center, India's first budget IVF clinic, and the first of our tentative steps in taking the miracle of life to the masses. We have been able to do this without compromising on our technology, techniques or our commitment to quality. Assisted Reproduction is an expensive proposition and we at Rotunda Blue are taking on the challenge of reaching out to the masses who need the treatment, even as they make difficult choices at home to aspire for it.

We know that facing infertility can be one of the most stressful situations you may encounter, emotionally, physically and of course, financially. At the Rotunda Blue Fertility Clinic, we work hand-in-hand with you to make every phase of the process - from diagnosis to treatment - as predictable and comfortable as possible. Many problems can easily be corrected with medication or minimally invasive surgical procedures. For couples facing more difficult challenges, our ART program ranks among the best in the nation.

We know when you visit our offices you may be worried about a procedure, a result, or your next step. Our staff is here to help - to answer all your questions, offer support, and make any procedures as comfortable as possible. Our goal is to provide our patients with state-of-the-art medical care and an environment that fosters the best possible outcome - at affordable prices!!

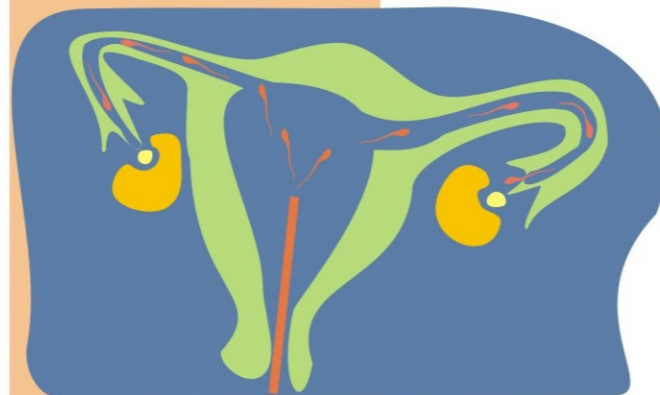

IVF Lite

LOW COST, SAFE, SUCCESSFUL, MILD IVF BY EXPERTS AND PIONEERS IN THE FIELD.

- ♀ Women's Health & Safety are our key priority
- ♀ The only center that mainly offers successful and safe Mild IVF or IVF Lite
- ♀ We respect women's choices and offer flexible treatment options
- ♀ The welfare of child and family are very important to us
- ♀ We do not advise any additional tests or procedures that are not scientifically proven
- ♀ We do not advise any additional tests or procedures that have recently been done by the couple, even if they were done at other centers
- ♀ We promote natural conception where possible
- ♀ The cost of treatment cycle is always kept to the minimum

WHAT IS IVF LITE?

IVF Lite is aimed at producing 2-7 eggs. It is conducted in the woman's natural menstrual cycle. Smaller dosages of stimulating drugs are given for a shorter period to help ripen the 2-7 eggs. This approach is also called Soft or Mild IVF. It is safer, less expensive, and avoids side effects associated with suppression of hormones in a conventional IVF cycle. It also reduces the risk of Ovarian Hyperstimulation Syndrome or OHSS.

Services Offered

ROTUNDA BLUE FERTILITY CLINIC provides a comprehensive range of Infertility services, all under one roof, so patients don't need to shuttle from clinic to lab to the scan center. This ensures that patients are required to visit only one site for all stages of their diagnosis and treatments. Conveniently located at Shivaji Park (Dadar West), in the heart of Mumbai, the Center has all the facilities required to deliver a full range of services to couples requiring assistance conceiving - at affordable prices.

SERVICES OFFERED AT THE ROTUNDA BLUE FERTILITY CLINIC INCLUDE:

- ♀ Basic Work-up of the Infertile Couple
- ♀ One-stop Fertility Diagnostic Services including Hormonal Testing
- ♀ Uterine Cavity Assessment (Sono-contrast Hystero-graphy)
- ♀ Diagnostic & Operative Laparoscopy and Hysteroscopy
- ♀ Ovulation Induction & Monitoring
- ♀ Gonadotropin Cycles
- ♀ Intrauterine Insemination (IUI)
- ♀ Semen Processing
- ♀ Semen Cryopreservation (Freezing)
- ♀ In Vitro Fertilization (IVF)
- ♀ IVF Lite
- ♀ Intracytoplasmic Sperm Injection (ICSI)
- ♀ Donor Egg IVF
- ♀ Embryo Freezing
- ♀ Blastocyst Transfer
- ♀ Assisted Hatching
- ♀ Surgical Sperm Retrieval (PESA / TESA) for men with azoospermia or no sperms on the ejaculate
- ♀ Minimally Invasive Ultrasound Guided Procedures such as Cyst Aspiration
- ♀ Reproductive Endoscopic Surgery including Fallopian Tube Recanalization
